

# AWMS-2-D13

DUAL DYNAMIC MONITOR ARMS ON POST

**For independent dynamic adjustment of dual monitors to ~27". Currently one of the most popular office setups.** A core application of our modular AWM solution, leveraging the elegant design and high performance functionality for a sophisticated workspace result.

**Interactive** desk mount solution

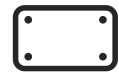

## Elegant

minimalist style for understated sophistication

## Tool-free

viewing angle adjustment, landscape to portrait rotation

75x75  
100x100

9kg (20lb)  
FLAT  
6kg (13.5b)  
CURVED

## Upgradable

for laptop tray, additional monitor arms, sliders, and more

## Tension indicator

to assist with multiple installations

## Advanced cable management

## Arm rotation stoppers

Built-in 180° rotation stopper on each arm to prevent interference with walls or desk partitions

## Focal distance

control via 3 points of articulation at head, mid-joint, & base

Available in silver, black, or white

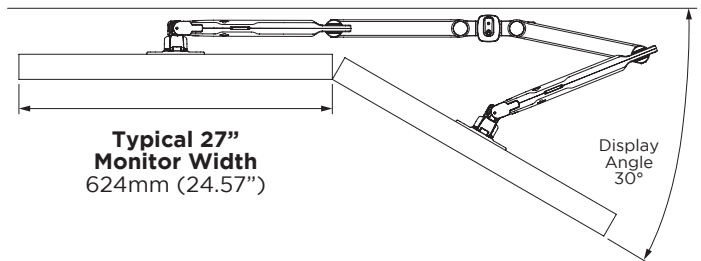

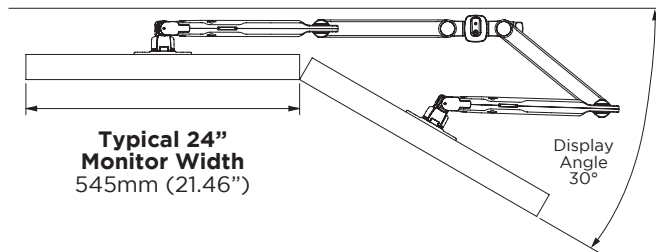

**10 Year Warranty**

## Ideal for primary-secondary monitor configuration

### Set your monitors for focus & ancillary view

A popular dual monitor configuration has one screen for your primary work, and a secondary screen for alerts that may require attention, such as emails and messages. Offset post mount is often recommended for this configuration.

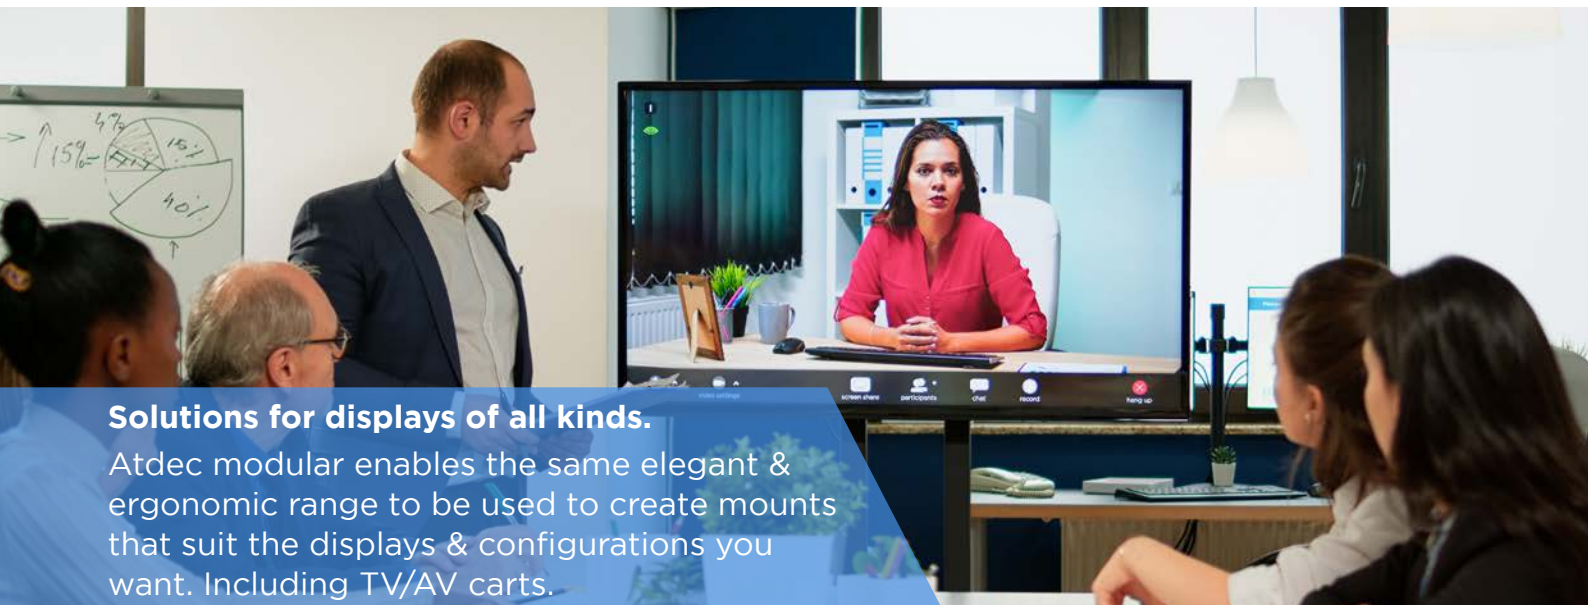

## Ordering guide

**AWMS-2-D13 consists of:**  
2 x AWM-AD dynamic arms  
1 x AWM-P13 post

**Desk fixing options:**  
AWM-FF F-clamp  
AWM-FH heavy-duty F-clamp  
AWM-FC C-clamp  
AC-GC grommet
